

WHAT IS A POEM?

by Gabe Lee

“What is a poem?” you might ask,
Have I got a treat for you!
I’ll teach you info that will last
About poetry so you can review.

Poems are something that you read,
That can be happy, sad, or silly.
They have a rhythm, a tempo, a beat
And can be about anything.

Usually poems have a patterned rhyme,
So the last words end the same.
These are the most cheerful kind,
And rhyme scheme is this kind’s name.

But not all poems have to be “rhyme scheme-ing”,
Some are just deep thought.
These express powerful feelings,
And are written by adults a lot.

These are only a few types,
There are many to explore.
But now I must say goodbye,
And I hope you now know more.
